F.O.B. SAN FRANCISCO OR ST. LOUIS, MO.

Steelcote Paints and Enamels are your best buy for clean, good looking surface protection. They are easy to apply and leave no brush marks because they contain a rubber plasticizer which also prevents the finish from getting brittle. A given amount of Steelcote covers more area than most enamels and a one-coat coverage is usually sufficient. For a long run financial saving and a longer surface life—use STEELCOTE.
